Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on _____.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11; 453 O.G. 213.

Disposition of Claims

Art Unit: 1644

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 42-53,80 drawn to polypeptides.

Group II, claims 56-60,81-84 are drawn to antibodies.

Group III, claims 61-62, drawn to a cell culture.

Group IV, claim 63, drawn to nucleic acids encoding antibodies.

Group V, claim 68, drawn to a method of making an antibody.

Group VI, claim 54,55, drawn to a fusion protein.

Group VII, claim 69, drawn to a peptide vaccine.

Group VIII, claims 70,89,90 drawn to a method of making a vaccine.

Group IX, claims 64-67,71,75,76,95 drawn to nucleic acids encoding peptides.

Group X, claims 85,86, 91,93,94,96 drawn to nucleic acids encoding fusion peptides.

Group XI, claim 92 drawn to a method of making a fusion peptide.

Group XII, claim 88 drawn to a nucleic acid vaccine.

Group XIII, claims 77,78,97,99 drawn to methods of treatment with a peptide.

Group XIV, claims 79,98,100,101 are drawn to gene therapy.

Group XV, claim 72,73 is drawn to a method of obtaining a nucleic acid.

Group XVI, claim 74 drawn to a method of making a peptide.

Group XVII, claim 87 drawn to a fusion protein vaccine.

The inventions listed as Groups do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons. The claims lack the same or corresponding special technical features because they are anticipated or obvious over the prior art for the reasons elaborated in the 409 report included in the instant application. In addition, regarding the antibody claims in the instant application, Breitman et al. (US Patent 5,681,714) teach polyclonal antibodies made against TEK (see column 18 and 4 wherein the disclosed protein is TEK). Said antibodies would bind the peptides recited in the claims because polyclonal antibodies against TEK would bind all immunogenic epitopes expressed by said molecule.

2. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are any particular TEK peptide recited in a claim (eg. Z1, etc).

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

5. Papers related to this application may be submitted to Group 1600 by facsimile transmission. The faxing of such papers must conform with the notice published in the Official Gazette, 1096 OG 30 (November 15, 1989). Papers should be faxed to Group 1600 at (703) 308-4242.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dr. Ron Schwadron whose telephone number is (703) 308-4680. The examiner can normally be reached Monday through Thursday from 7:30 to 6:00. A message may be left on the examiners voice mail service. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ms. Christina Chan can be reached on (703) 308-3973. Any inquiry of a general nature or relating to the status of this application should be directed to the Group 1600 receptionist whose telephone number is (703) 308-0196.
